The British Grain Trade, LONDON, August 16 .- The Mark Land Express, in its review of the British grain trade during the past week, says: Unsettled weather has retarded harvesting, which will now be very late. Wheat has rusled and mildewed to an extent greatly affecting the quality and every thing points to a deficient wheat crop. English wheat is firmer and prices are against buyers. The sales of English wheat during the past

week were 44,120 quarters, at 32s 6d, against 3761 quarters at 33s 1d during the corresponding period of last year. The foreign wheat trade is insnimate; the purchases are only of a retail pa-ture. Corn on the spot is against buyers. Fourteen cargoes of wheat arrived. Three cargoes were sold, including one of California, at 33s 31; one was withdrawn and seven remained. Trade forward is quiet; there is a desultory inquiry for California which is momentarily against buyers. Today the market was very firm but
